

Site Learning Plan

To create a culture that increase learner agency, raises expectation and aspirations, and empowers all learners to succeed in school and thrive in life

We will achieve growth in learning outcomes by pairing skillful teaching with skillful learning
(with a focus on reading and writing)

Learner Agency

We're building learner agency by helping students take charge of their own learning. That means knowing how to work through challenge, use feedback to improve, and recognise what helps them grow-so they don't just complete work, they become more capable over time

Writing

Focused teaching of paragraphing, punctuation, and vocabulary to strengthen writing outcomes across all year levels.

Reading

Deepening students' inference and comprehension skills across all year levels.

Aboriginal Learners

Implementing targeting strategies to accelerate growth for Aboriginal learners with a focus on culturally responsive teaching and date-informed support.

High Impact Priorities
